Client Speak

“ “ We have displayed all of our latest technology products and upcoming products. We are really happy to see that so many exhibitors are there, our customers, trade partners are coming and seeing our products, good organization and good footfall. ” ”

..... MICROTECK

“ “ This expo is inline with what we do. The response to our products are commenciabile, we are experiencing a large foot fall and there are a variety of things and this entire ecosystem is bringing in a lot of crowd who are looking at adopting Renewable Energy Solutions. ” ”

..... SWADESHI GROUP

“ “ We are very happy with associating with the expo organizers have done a very good job and we look forward to participating in more such events. ” ”

..... SAKTHI ACCUMULATORS

“ “ It was a pretty good experience for us. The way they have organized is very good and this is a right platform to get to know about other upcoming technologies and everyone has the presence here. ” ”

..... SKG ENVIRON LAB PVT LTD

“ “ This event is a great platform in the sense to connect with people in the same industry scale that we survive. The event is greatly organized at the right location, at the right place, and the right time and this is a very good platform. ” ”

Way Ahead

Based on the inputs that we have received from the exhibitors as well as the visitors who have been part of the event. It has been decided to hold the second edition of India Green Energy Expo as a separate event individually.

The First edition was held concurrently as the reaction to the expo from the exhibitor's as well as the visitor end was not known. It is now seen that the event is being well received by the industry so with an intention to better project the event and increase the reach of the event it would be appropriate that the event be held individually.

The event is being planned on 03-04-05 June 2024 in Hall no 01 of Bangalore International Exhibition Centre, Bangalore. The event is currently planned with a target of reaching about 100 exhibitors and space of 2000 sq.mts is planned to be blocked for the same which can be increased based on the increase in the number of Exhibitors.

Support From MSME

Just like the other events being conducted by MDM with the support of MSME department, We will be making efforts to include the India Green Energy Expo also under the PMS scheme for market promotion that is being offered by the department of MSME to Small and Micro Industries. Under this scheme, the space of 9 Sqmts is being planned to be offered to Micro and Small industries for participation in the expo.

Reimbursement of amount under the PMS scheme is provided by the MSME department to Small and Micro Industries. The department offers reimbursement of 80% to general category members while 100% reimbursement is offered to SC/ST and women entrepreneurs.
